

ZETA™ (DCS2AE)

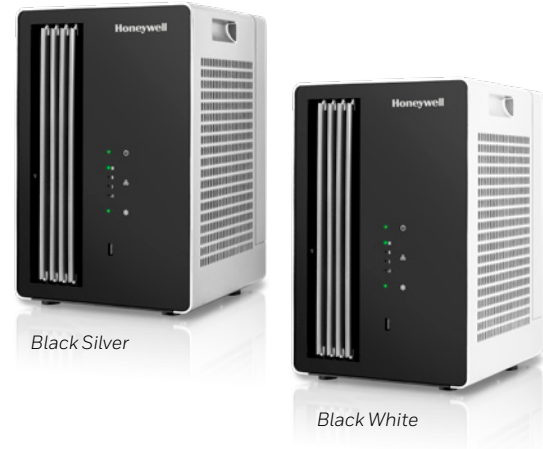

PERSONAL AIR COOLER

Recover your own state of Zen in an otherwise stressful and airless day. With the touch of a snowflake button, hot, dry air transforms into a welcoming, cold breeze that will ignite your senses.

YOUR OWN COOLING ZONE.

Compact in size, it's easy to save on electricity bills by moving ZETA™ around with you from the home office table to kitchen to the back patio. Rest easy at night with ZETA's™ Sleep Mode setting designed to optimize slumber. ZETA™ consumes very little energy and can run for up to 10 hours without a refill.

More than just a cooler, the ZETA™ is a 3-in-1 device: evaporative cooler, fan, and humidifier for year-round comfort. Evaporative cooling harnesses the power of water evaporation to cool air temperature. The result is a sensation akin to a refreshing lakeside breeze that works best in hot, dry climates.

Black White

Product Dimensions (mm): 200 (W) x 220 (D) x 310 (H)
Net Weight: 3.3 kg

HONEYCOMB COOLING MEDIA WITH ANTIBACTERIAL TREATMENT*

*Antibacterial Honeycomb is up to 99%^A effective in killing certain types of bacteria through 48 hours of continuous use.

LEAKPROOF, DETACHABLE WATER TANK

For easy refilling

USB 2.0A CHARGE PORT

Ideal for smart mobile device.

MORE FEATURES

LOW POWER CONSUMPTION

Consumes only 50 W*

POWERFUL & LONG AIRFLOW

Airflow: 190m³/hr*

ECO-FRIENDLY

No damaging compressors or refrigerants

WATER CAPACITY

2 L**

FAST AIR DISTRIBUTION

4 Fan Speeds

REDUCE TEMPERATURE

by Water Evaporation

BRING IT ANYWHERE

Bedside table, desktop, kitchen

SET IT & FORGET IT

Up to 10 hours of refreshingly cool air (on a full water tank)

OSCILLATING LOUVERS

Even Airflow

* All specifications mentioned are under test conditions, actual performance depends on ambient conditions. Specifications may vary in different countries and subject to change without prior notice.

** Water Capacity is the total volume of water that can be contained within the air cooler water tank and water distribution system.

^A Based on independent laboratory testing (report #WJ20182408), testing the antibacterial and cleaning function of the honeycomb cooling pads against Escherichia coli (strain #ATCC 25922), Staphylococcus aureus (strain #ATCC 6539), Klebsiella Pneumoniae (strain #ATCC 4352), as per testing standard gb 21551.2_2010 designed for testing antibacterial and cleaning functions for household, and similar electrical appliances.
