Product Description:

OX-ON Eyewear Anti-fog Comfort - Clear with anti-scratch is a lightweight pair of glasses in a smart design. Strong and impact-resistant safety-approved glasses for the person who works indoors and out, and needs good visibility with anti-fog properties. Frame and lenses are made of polycarbonate, which makes the safety glasses extremely strong and impact-resistant, so they can be used in demanding environments. They provide you with 99.9% protection against UV radiation. The design of the glasses ensures that you have 180 degree visibility. These smart, close-fitting lightweight glasses are fitted with soft rubber temple tips, which makes them non-slip and provides a comfortable fit when you need to wear the glasses for a longer period of time. The lenses have optical class 1 certification, which means the glasses are for permanent use.
