Make your door smart -
In less than 10 minutes.

No tools required
Glue it on. Connect. Unlock.

Easy Fit

Smart Lock Series

Keyless, Connected & Secure

Easy Fit

Product Overview

The Heimgard Easy Fit Smart Door Lock with Keypad upgrades existing doors with secure keyless entry, without replacing the original lock. It installs in minutes using a removable glue pad, requiring no drilling or door modifications.

Access can be managed via smartphone app or through the included wireless keypad, which supports personal, temporary, and scheduled access codes. An anti-peeping feature protects code entry, while the original mechanical key remains fully functional as a backup.

Using encrypted Bluetooth communication and long-lasting batteries, the Heimgard Easy Fit delivers reliable everyday security. Its non-permanent installation makes it ideal for homes, rental properties, and short-term accommodations. You can easily take it off and take it with you to your next home.

Key Features & Benefits

- Keyless Access – Unlock with PIN, RFID tag, Fingerprint or the Heimgard app (Locally).
- Smart App Control – Onboard and setup, Lock/unlock, create PINs to share.
- Auto Lock – Locks automatically after opening (default 5 sec, adjustable)
- Anti-Peep PIN – Enter random digits before/after your real PIN
- Retains full use of your existing key and lock, no change to normal access, ever.
- Secure & Durable Keypad – IP65-rated exterior; designed for harsh Nordic weather
- Fits most standard doors with a knob turn or key on the inside
- Battery Powered – Long life (up to *300 days); alerts when low
- Placement above or below the door handle, Horizontal or vertical placement
