FEATURES

The Cubito Style collection perfectly combines design and functionality. The wall-hung toilet of this series has an innovative Vortex/Rimless flushing (a toilet design with a vortex flushing). In addition to the standard deep flush 4.5/3l, there is the option of choosing Dual Flush 4/2l, which makes the toilet extremely economical. We provide an extended 10-year warranty on JIKA ceramic products when installed by a trained plumber.

Fixing kit: **Included**

Flushing system: **Washdown**

Installation type: **Wall-hung**

Outlet type: **Horizontal**

Shape: **Round**

## COMPATIBLE WITH

WC seat and cover,  
duroplast, Slowclose,  
removable stainless steel  
hinges

## Cubito Style

The Cubito Style collection is the key to simplicity and comfort. Its style perfectly combines sophisticated design and functionality. The impressive design will perfectly complement any environment designed in a modern cosmopolitan spirit.

The new Cubito Style toilet series covers a comprehensive toilet solution. It offers both a wall-hung toilet and a freestanding option or close coupled toilets. All variants feature the innovative Vortex flushing, Rimless technology and are extremely economical. Only 2 liters are needed for a small flush, which is less than with standard toilets, and 4 liters for a large one.

The Cubito Style close coupled toilet is also a suitable alternative for replacing older close coupled toilets where the layout does not allow the installation of more spacious toilets. At 63 cm, it has the same length as the popular Lyra Plus combination toilets, while maintaining the standard seat length. The series is also completed by bidets in the same design.
